- Need to have two locations hosting on the same Saturday in the future. We are getting too big to be able to keep it on one field for one day.
- Discussion to make U14 gender specific. Mother contacted Angel and wanted Fairgrove to put female players on their team as they are all currently boys. This is not possible because there are only boys that are signing up. As an association, we can not force females from other teams to join that team. This mother stated if that was the case then they asked the Fairgrove team to be disbanded and sent to other communities. This is not something DCYSA can do.
- Discussed that the new website that will update scores, create schedules, and place teams on brackets. It would simplify what we are doing. Tere is training with it. The gentleman that is going to host the website has been very helpful. This website will be called Davidson County Youth Soccer League. It will be expensive. Mother payment is $450 a month. One time is $5,000. He is maintain the domain name and website. The renewal every year is $1,200. The Association can own the domain name. Question was raised on how much this site will actually do, ie send messages to all registered player a mass message.
